Description In this fun class they will explore the use of musical instruments and different forms of dance. They will also be incorporating the music to the dances they have learned.	Description In this fun class they will explore the use of musical instruments and different forms of dance. They will also be incorporating the music to the dances they have learned	Description Cooking in Spanish class is just that, Ms. Cynthia will be instructing the class speaking Spanish to them and using Spanish in the descriptions of food. They will be making a yummy food item and being exposed to the Spanish language at the same time. Truly a unique experience.	Description In Science Explores, we will design and make a variety of different science activities. Children will be exposed to a variety of hands-on experiments that will spark curiosity, creativity, discovery and exploration of the world of science.	Description In this gardening class, students will explore nature through fun plant and seed based activities with a hands-on investigations. Students will be planting seeds and plants and learning about some cool bugs along the way!	Description A cooking class designed for the older preschooler to enhance their pre-reading, math and science skills. The children will look and "read" the directions to then cook or made the food item. Lots of hands on cooking experience.	Description Mindful Children's Yoga with Rachel can help them to become more compassionate and self aware individuals. Children connect with others and themselves by learning mindful movements and yoga poses.	Description In this hands on class, children will assemble projects in wood and clay using simple tools and techniques. We'll emphasize safety in our explorations of projects that children will love to make.
